

Motocross Sprockets

Talon motocross sprockets are renowned worldwide as the ultimate in alloy sprockets. Rear sprockets come gold-anodised and are precision-made from 7075T6 aluminium, making them hard-wearing and lightweight.

Front sprockets are made from chrome-moly molybdenum steel.

Talon has THE BIGGEST range of MX sprockets available anywhere.

Road Race Sprockets

Rear sprockets are made from 7075T6 alloy, with front sprockets made from chrome-moly molybdenum steel.

Three chain sizes are available in most models – 520, 525 and 530, so whether you're a serious racer or an easy-going tourist, Talon have got you covered.

Motocross Discs

Massive range of stainless steel and heat-treated discs that will stop you fast & won't get bent out of shape. Available for off road bikes in a huge choice of sizes and fitments.

Supermotard Discs

Huge 320mm front discs, fully-floating, made from heat-treated stainless steel. Complete with calliper bracket to suit, these discs will stop you with one finger.

Motocross Floating Discs

Talon's new floating motocross discs combine the cutting-edge of technology and the quality of Talon products we have come to love.

All discs are lightweight and drilled and are available in standard or oversize for all late model motocross bikes!

Calliper Brackets

With the ever-expanding Super Motard Racing, Talon is now offering a complete range of billet aluminium calliper brackets which allow you to use your original calliper when converting your motard monster! All brackets are precision machined and are available to suit all your common motard machines.

(Calliper brackets can be purchased separately.)

Rimlocks

Make sure your tyres stay put with Talon rim locks. These are high quality items that won't wear out or fall apart. Made from T6 billet alloy, fully CNC machined and fitted with a stainless steel bolt... these puppies are unbreakable!

Talon

Talon products have long been at the forefront of the motorcycle aftermarket industry, offering unrivalled quality and workmanship.

Made in England using only the highest grade materials, Talon products have the championship-winning strength and durability you're looking for.

"The gear the factory guys use"
