

### Motocross Wheels

Quality wheel packages that will stand up to the demands of motocross & supercross. Wheels utilise Talon hubs, stainless spokes and Excel rims.

Competition motocross wheels for the serious racer or enthusiast use the same components as all Talon wheels making them lightweight and super strong!

### Minibike Wheels

Junior riders today are faster than ever and more demanding of their machinery. Talon has the wheel setup that will get them to the chequers.

### Supermotard Wheels

Lightweight Talon hubs matched with stainless spokes and Excel rims complete the **ultimate** Super Motard package!

Available for almost every Super Motard bike.

### Rim Colours

Available for most sizes!

Like to stand out from the crowd? Then customise your bike with coloured rims. They're hard-anodised for style and durability.

**Talon Hubs - Guaranteed for 2 Years**  
\*Conditions Apply

### Cush-Drive Hubs

Talon's newest addition to the hub ranks is the KTM cush-drive rear hub. Available in gold and polished silver. The hub comes complete with cush-drive and rubbers. This hub is a must for serious KTM Super Motard riders. It should be available to suit a wide range of models shortly.
