

Universal Spoke Kit

A product of John Titman Racing Service, this universal spoke kit is a must for every shop. Gone are the problems of only being able to buy spoke sets from OEM manufacturers.

The spoke kit offers individual front and rear spokes for all late-model motocross and enduro bikes in 21", 19" and 18" sizes.

The one-off price for the kit sees you receive front and rear spokes with 6 spokes in each size. From there-on, it is a matter of replacing the sizes sold (no minimum purchase required).

All spokes are stainless and come with nickel-brass nipples.

Increase your profit margin & customer satisfaction with a Talon spoke kit!

Wheel Building

John Titman Racing Service is one of few wholesalers to offer workshop facilities, making available to you the ultimate in wheel-building expertise! Our qualified wheel-builders, using specialised rim-drilling and spoke-manufacturing equipment, will make certain you get you a first-class product every time!

John Titman Racing Service now has the following in-house facilities:

- New wheel-building
- Re-spoking of second hand wheels
- New rim replacement
- Rim drilling and modifications
- Custom spoke sets
- Special wheels undertaken

Custom Made Sprockets

As shown, John Titman Racing Service also stocks a massive range of blank sprockets in the following pitches:

- 415, 420, 428, 520, 530, 630

Given a sample, we can create any special sprocket or vintage sprocket required with our state-of-the-art lathe and drilling equipment.

Ultimate in wheel-building expertise!

"The gear the factory guys use"
